

This architectural rendering shows a modern, multi-story residential building with a curved roofline. The building features a mix of materials, including light-colored stone on the ground floor and white panels on the upper floors. It has numerous balconies with glass railings and some with colorful awnings. The building is situated in an urban environment with a street, a crosswalk, and some greenery in the foreground. A few people are depicted walking on the sidewalk and crossing the street, and a car is parked on the street. The sky is blue with some clouds.

This architectural floor plan shows a long, narrow building with a complex internal layout. The building is situated between 'Rue du Mont Gagneux' and 'Passage Robin'. A large, irregularly shaped area on the left side of the plan is outlined in red, representing the 'terrain à bâtir'. A compass rose is located to the left of the building. The plan includes numerous rooms, corridors, and a central staircase area. The building's footprint is shown in black, while the surrounding areas are white.
